**REASONS FOR ALLOWANCE
AND
EXAMINER'S AMENDMENT**

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest individually or in combination a dialog facilitator for coordinating and organizing online messages by preserving the spatial and temporal context of a dialog composed of a plurality of postings, and using information contained in the dialog posting to generate, for each dialog posting, a posting summary containing a posting identifier, content description information, and referential information identifying relationships to other posting summaries. The posting summary also contains addressing information identifying recipients of the corresponding dialog posting. The postings are packaged into electronic messages and are sent and received using a services gateway.

The facilitator includes a journal keeper receives the posting summary from the services gateway, maps it to the appropriate dialog and stores the summary in a dialog store. The journal keeper examines the referential information to determine whether the posting summary is related to other posting summaries in the dialog store. It assigns a unique dialog identifier to the posting summary if the posting summary is not related to another posting summary, and assigns the dialog identifier of the related posting summary if it is related to another posting summary.

The facilitator further includes a media coordinator is provided for graphically depicting the spatial and temporal context of a selected dialog posting in relation to other postings belonging to a given dialog.

2. Pursuant to MPEP 606.01, the title has been changed to read:

-- DIALOG FACILITATION SYSTEM FOR GENERATING CONTEXTUAL ORDER-
PRESERVING DIALOG POSTINGS AND POSTING SUMMARIES FROM ELECTRONIC
MESSAGES --.
